

# When ZOOMing goes wrong!

"No Audio, or Video, or Bandwidth!  
Oh my!"

It's not a question of **IF** you'll have problems with your on-line meetings, it's, "What are you going to do **WHEN** you have problems with your online meetings?"

There are so many unintentional hiccups and surprises that can, and do, occur when you rely on technology to connect you to your audience.

The easiest way to deal with these problems is to be ready for them before they show up and shut you down.

- There are 3 players in every on-line meeting. Are they well versed in what needs to be done?
- When is "Plan B" not enough?
- How will your audience react **WHEN** you don't show up on the screen?
- How will your audience react **AFTER** you don't show up on the screen?

STAY CALM and try to have some FUN! Let's prepare for the unexpected, fix what we can, and learn what to do when the unthinkable happens.

In this workshop, we will discuss...

- The best practices for Audio issues and what to do when they happen.
- How NOT to be the Victim of Video problems.
- How to combat Zoom Bombers!
- Create Audience Empathy and turn it into real Loyalty!

Plus, get a comprehensive list of "What to Do Before, During, and After your Online Meetings" whether hilarity or havoc happens or not.

I've been on the screen and behind the scenes in multiple meeting and conquered some crazy conundrums.

You'll learn to laugh at lost connections and have fun with the freezes as you become a Zoom Master of Disaster!

**I hope to see you soon!  
Or maybe, I'll just hear from you!**
